

12. Failed to cooperate with the offices of the State Medical Examiner and the County Medical Examiner.
13. Following a report of a suspicious death, in which the cause of death was obscure, failed to secure the scene of the event, and failed to prevent it from being disturbed until authorization was given by the Medical Examiner.
14. Failed to conduct the required investigations.
15. Failed to insure that the mandatory autopsy was completed as required.
16. Failed to follow-up on determining why the mandatory autopsy was not completed as required by law.
17. Failed to obtain the detailed records noted above from the County Medical Examiner for use in conducting his mandatory investigation; knowingly and purposely failed to ask the medical examiner for the records he knew the medical examiner was required to prepare regarding the suspicious death investigation.
18. Failed to ensure that an autopsy was conducted by the Medical Examiner's Office, thus permitting the destruction of physical evidence (the decedent's body) that could be used in the investigatory process to help determine the cause of death.
19. Failed to follow-up when the County Medical Examiner did not send him copies of required investigative reports on November 1, 2005 or November 15, 2005, and twice per month thereafter, per the law, until such time as the investigation was complete.
20. Failed to inquire about or follow-up with the County Medical Examiner regarding the description and report of gross autopsy findings completed and signed by the Medical Examiner's Office as part of their investigation into the suspicious death.
21. Failed to confirm that an autopsy was completed as required by law.
22. Failed to ensure that the decedent's body, physical evidence in the case, was properly stored in the County Morgue, for evidentiary purposes.
23. Failed to obtain any and all evidence from the Medical Examiner that could have been useful in establishing the cause of death.
24. Failed to file in the Prosecutor's case files the detailed descriptions of the autopsy made by the Medical Examiner.
