

copy of the report and advised Lt. Brennan I would be speaking to the brother in Maryland. On 10-29-05 at 2208 hours, this officer contacted the Medical Examiner's Office and spoke to Giralda in reference to the case. Information was exchanged in reference to the officer's initial report at the scene and I advised her I would be speaking to the brother of the deceased and get back to her as soon as I had further information. This officer then contacted the Middlesex County Prosecutors Office in reference to the information received and was contacted by Inv. Todd Gerba at 2218 hours. He was briefed in reference to the information thus far which had been provided to me in reference to this death. It was agreed that this officer would contact the brother and find out further information in reference to his concerns about his sister's death. At 2313 hours, this officer spoke to Mr. Bill Strouse in reference to his sister's death. He stated that she was sick during the spring and was diagnosed with cancer. He stated she had numerous PET scans and the second one did not change drastically from the first one. He stated he saw her on 6-24-05 and he knew she was sick and dying of cancer, but she did not look that bad. He stated that approximately two weeks ago, 10-3-05, he saw her and she lost a lot of weight and he was concerned about her health care. He stated he thought her cancer was in remission and he did not think her husband was doing enough for her in reference to seeking other opinions and feeding her. He stated he had a niece named Debbie Bath who was tending to her mother and Debbie Bath was afraid of her husband, Ray Sauder, and there were concerns by him and his sister, Caroline who lives in Florida, that the proper treatment was not being given. He stated he believed she was being starved and overmedicated with morphine and he did not think that was proper and, through his observations, he thought he was heavily medicating her and starving her and killing her. He stated he contacted an attorney in Red Bank and the attorney stated that as of this time, he had no standing in the care of his sister, but he would be checking with another attorney on Wednesday or Thursday of this week whose last name is Cassidy and he would be discussing further legal action in reference to his brother-in-law's care of his sister. During my conversation with the Medical Examiner's
